

St. Boniface Hospital New ED Project

Construction Newsletter

JANUARY 2024 ISSUE 18

This monthly newsletter provides insight into construction activities and updates on the progress of the New Emergency Department project.

Month at a glance

Over the month of January exterior brick and stone continued along the south elevation. Acoustic Ceiling track began installation at the north end of the ED and boarding of the mental health pods was completed. Installation began on the trauma elevators and the stairs in Y Block were installed.

Upcoming Work

- Penthouse mechanical system installation
- Electrical Distribution equipment tie-in.
- Flooring installation to continue.
- Interior painting to continue.

Fun Facts – Behind the Wall Edition 2

Within the walls of each bathroom, robust steel supports are installed to carry both sinks and toilets. The steel brackets to the left of the picture provide support for the sink and the steel bracket on the lower right provides support for the floating toilets. All water lines are insulated, and plywood is installed to provide anchoring support for sinks, and other bathroom accessories.
