

St. Boniface Hospital New ED Project

Construction Newsletter

SEPTEMBER 2024

ISSUE 21

This monthly newsletter provides insight into construction activities and updates on the progress of the New Emergency Department project.

Month at a glance

Over the summer months, all areas within the new Emergency Department have now received flooring, millwork, wall finishes, ceilings, and device installation. Major equipment has begun its start-up process in preparation of building commissioning. Commissioning will be the focus over the coming months.

Upcoming Work

- South Parking Lot landscaping
- Accessory installation.
- Commissioning
- Tache sidewalk completion

Fun Facts

The pneumatic tube system within the hospital is being expanded and connected into the New Emergency Department. The systems can carry up to 2kg of cargo and will maintain a velocity of 7.6m/s (~30km/h) with controlled acceleration and deceleration for sensitive cargo.
