

St. Boniface Hospital New ED Project Construction Newsletter

JULY 1, 2022

This monthly newsletter provides insight into construction activities and updates on the progress of the New Emergency Department project.

This month at a glance

Despite the rain, June saw work continuing to progress on site. Piling for the new Emergency Department continued adjacent to Y Block, shoring was installed along Tache Avenue, the EMS garage and south entry was demolished making way for the new building structure, and site utilities were able to complete the installation of new water main.

Upcoming Work

- Construction of the future tunnel to begin
- Piling to continue
- Pile caps and concrete foundation to begin
- South parking lot improvements to continue.
- Land drainage and waste-water utilities to be installed

Fun Facts

Excavation for the New Emergency Department foundation is progressing to stay ahead of the piling operation. To date, the amount of earth removed from site would be able to fill two Olympic size swimming pools.
